

**Post-Lichfield revised explanation regarding premium and standard service: 30.Sept. 2011**

**Option 1 -- Premium Service: (TYPO3 –new, updated site)**

- Piggy-back on EVTA TYPO3 CMS installation (no separate TYPO 3 Installation!)
- Use EVTA Sub-Domain linking to current Domain Name
- Template use included
- Separate Admin & Back-Office access, individual content control, etc.
- 3 Options regarding Email:
  1. No Email service needed; association manages that on their own
  2. TLD-Domain (.com, .net, .org., etc.) hosted by Q-WERT.  
All incoming Emails to that Domain are forwarded to just ONE single external E Mail (Google, Yahoo etc.)  
Q-WERT will charge just domain costs +/- 2€/month.
  3. TLD-Domain (.com, .net, .org etc.) hosted by Q-WERT.  
Several email-addresses for different users needed. admin@, info@ etc.  
with SEPARATE unique email accounts for each address.  
Q-WERT will charge domain costs +/- 2€/month and 9€ for mail service hosting.
- Possible Right Navigation Link to Home Page on EVTA Home page

Basically, any association wishing to have a TYPO3-CMS solution would be using a template, have full access and content control through the Web browser Back-Office and would only be paying the one time fee. Web hosting costs are not mandatory.

**One time set-up fee: 58, 31€ / No monthly hosting costs**

**EVTA would ask that those associations using premium service contribute to monthly hosting costs to help reduce EVTA's yearly hosting costing of 556,92 EUR. We foresee a minimum contribution of 5 EUR a month. Larger associations would be asked to contribute more.**

---

**Option 2-- Standard Service A: (keep current website)**

- Internal re-routing to current website via link (as it currently is on EVTA website)
- No CMS Installation (Keep current website)
- Keep current Domain Name provider in country
- No Email service (rerouting to Google Mail, e.g.)

**No set-up fee / No monthly hosting costs.**

---

**Option 3-- Standard Service B: (Keep current site/change hosting service and Domain Name registrar)**

- Transfer current website from current Webhost to q-wert.net as Webhosting service
- Keep current website (HTML): No TYPO3 installation
- Use FTP Admin access for updating website
- Includes full Email service with unlimited Email accounts
- Either keep own Domain Name registrar in country, or transfer Domain Name registration to q-wert.net.

**One time set-up fee 58,31 € + monthly hosting costs 10,71 €**

**Domain Name Transfer fee 19 € + yearly domain name service fee, circa 12-15 €**
